TRANSPORTING A HEAVY DUTY TRUCK WITH HEAVY HAULERS

Heavy Haulers is the country's premiere Super Load haulers. We specialize in towing everything from crane trucks and garbage trucks to moving trucks and passenger buses. Transport of heavy duty trucks typically requires oversized permits and regular weight inspections when being transported across state lines. We take care of securing the proper paperwork to deliver your heavy duty truck to your door, wherever you live in North America.

WHEN SHIPPING A HEAVY DUTY TRUCK

Because of their immense size, towing or transporting these vehicles can be difficult. They are often oversized in width and height. We utilize several trailer types to transport heavy duty commercial trucks, including a low-boy or step-deck carrier. Our professional drivers have the expertise and experience in towing or transport of heavy duty vehicles, so you can rest knowing that we'll treat your truck with the same care and respect you would.

Shipping a garbage truck can be challenging, both due to the weight of the vehicle and the height. Heavy haulers knows how to ship a garbage truck, including where to secure the wheels and articulated dump beds to prevent moving during transit. These trucks typically ship on RGN trailers due to the weight.

TRAVELING CROSS-COUNTRY WITH A HEAVY DUTY TRUCK

Many cities across the U.S. have strict legal requirements for the transport of large equipment or vehicles, including travel restrictions during rush hours and after dark. We make it our business to know the regulations in each state or territory we travel, and we handle the logistics of your transport from start to finish. Doubly insured and fully licensed to work throughout the North American continent, your heavy duty truck is safe with us.

Let Heavy Haulers fulfill your heavy duty truck transport and towing needs.
